87th Year, No. 10 Fort Worth, Texas, March 10, 1983 Two Sections, Forty-eight Pages

### tuph & Thangs

**FINALLY GITTIN' SOME NEEDED ATTENTION...**

Numerous proposals moving in Congress this week aimed at strengthening the depressed American farmers, if enacted, pose severe challenges to exporting countries who are subsidizing farmers at the expense of America's farmers. These actions include financial aid for exporters, use of burdensome U.S. stocks of all kinds of commodities from grain, cotton, etc., to poultry and dairy stocks now owned by the CCC. Briefly some of these proposals include:

1. Export sales of 160,000 metric tons of CCC dairy stocks in the years 1983 through 1986. Proceeds of these sales would be used to help exporters match subsidized prices on the world markets.
2. \$20 million to be used to promote exports of poultry and eggs.

### Cattle Raisers Set Program for Annual Meeting March 20-23

Fort Worth — More than 2,000 cattlemen from throughout the southwestern United States are expected to attend the 106th annual convention, trade show and heritage sale of the Texas and Southwestern Cattle Raisers Association March 20-23 in Austin, says Frances Seeligen, TSCRA president.

Most convention activities will be held in the Palmer Auditorium and Civic Center, the Austin Hyatt Regency and the University of Texas campus, the San Antonio cattleman said. Admiral Bobby R. Inman, former deputy director of the Central Intelligence Agency, will headline a slate of nationally-known speakers. Inman will deliver the keynote address at the convention's kickoff luncheon on Monday, March 20.

Other major speakers include Dr. W. J. "Dab" Waldrip, president of the National Cattlemen's Association; Hilarie G. Moore, chairman of the Beef Industry Council of the National Live Stock and Meat Board; Dr. Burdette C. Breidenstein, director of research for the Meat Board; Raymond M. Mombasse, managing attorney of the Pacific Legal Foundation; Dottie St. Clair of Clayton Brokerage Company's Dallas office; Barbara Keating Edli, president of Consumer Alert; Texas Governor Mark White and Mrs. Kling "Rocky" Terry, president of the Texas Cowboy Hall.

Seeligen and Don C. King, TSCRA secretary-general manager, will give their annual reports on Wednesday, March 23.

The convention will open Sunday with a 110-exhibit trade show featuring agricultural products and services from throughout the U.S. Several prominent Western artists and entertainers will exhibit their work during the trade show's three-day run. Following a welcome party in the trade show area on Sunday evening, the Cattle Raisers Heritage Sale will feature the sale at auction of 20 select Quarter horses, 12 registered bulls of the major beef breeds and 15 pieces of Western art. Ruben Reyes, the San Antonio auctioneer who recently sold the first two-million-dollar bull sale in history, will serve again as auctioneer. The Texas CowBelles, a TSCRA auxiliary active in beef promotion and legislative activities, will hold its spring meeting in conjunction with the convention Sunday and Monday.

Following committee meetings and the kickoff luncheon on Monday, the TSCRA Board of Directors will meet at 1:30 p.m. to hear Waldrip, Moore and Breidenstein. More committee meetings will be held that afternoon. At 3 p.m. Monday, registrants can tour the Brucellosis Testing Laboratory operated by the Texas Animal Health Commission. The tour will be repeated at the same time on Tuesday, Seeligen said.

### White and Hightower Proclaim 'Ag Week' To Focus on Problems of Family Farmers

Zeroing in on the economic difficulties of Texas family farmers and ranchers, Governor Mark White and Agriculture Commissioner Jim Hightower have issued a joint proclamation declaring March 18-24 "Texas Agriculture Week."

The observance will coincide with National Agriculture Week and with National Agriculture Day, March 21. Hightower said the Agriculture Department will be sponsoring a series of activities during the week. Plans include agricultural exhibits in the State Capitol rotunda, a March 19 Agriculture Fair in conjunction with the Austin-Travis County Livestock Show and Rodeo, a House/Senate cow-milking contest and a major farm policy statement by White and Hightower.

(CONT. ON PAGE 8A)

"This is not a celebration," White cautioned. "You don't celebrate when people are in trouble, and our farmers and ranchers are in serious trouble. This observance is to call to the public's attention to the plight of our family farmers and ranchers, and, hopefully, to rally public support for steps we can take to turn things around for them, whether it's here or in Washington."

"This observance is not just for rural folks," Hightower explained. "It's for all of us. The food and fiber industry accounts for one out of every five jobs in Texas, in both urban and rural areas, and our farmers and ranchers are the biggest consumers in the state. When the farm economy is depressed — and it's certainly depressed now — it directly affects the economy of the entire state. We've all got a stake in reviving our farm and ranch economy, and we're not enough to sit around and wring our hands. There's a job to be done, and I'm especially pleased that the Governor is eager to work closely with us on turning things around for our family farmers and ranchers. And this proclamation is our invitation to all Texans to join with us in the effort."

Commodity Comment

Week Ending March 4, 1983

There are two bulls standing on the hillside watching a herd of heifers. The young, aggressive bull starts jumping up and down saying to his wise companion, "Come on! Let's run down the hill and get one!" The older, more experienced bull turns to his impetuous friend and says, "I've got a better idea... let's walk down the hill and get 'em all!" That's precisely what happened to all markets this week, only in this case the bears got the bulls. Huge price declines were experienced in grains, livestock and especially, precious metals.

The main force moving on the Chicago Board of Trade this week was the price break in gold and silver. The grains just couldn't hold the previous weeks gains. Wheat, soybeans and oats all hit the lowest levels seen in almost 2 months. Technically speaking, the grain markets appear to be moving sideways waiting for some new piece of news to push prices higher or lower. The corn market continues to be the real strength of the grains and the "bears" feel that July corn could hit \$3.20 by summer. I have no strong bias towards the grains. I do however, like new crop beans on a price pullback. At this writing, July wheat closed at \$3.38, July corn \$2.94, and November beans \$6.16.

The Mercantile Exchange has all traders confused. Pork prices have hit 6 month lows while cattle prices continue to hit new yearly highs. Hog slaughter remains more than ample, and demand stinks. The "bears" on the floor of the Mercantile are looking for \$70 March bellies and April hogs at \$50. Right now those prices seem highly probable. The March Pig Crop Report continues to be more and more significant. It will be released on March 21. Cattle look great! I've been bullish and prices should work higher. At this writing March bellies closed at \$72.20, April hogs \$51.85, and June cattle \$55.95.

The so-called "precious" metals have been dealt a serious blow. Silver prices have collapsed to the tune of \$15,000 per contract in 2 weeks. Gold, platinum, and palladium also fell in similar fashion. The price collapse just witnessed was not unexpected. The warning signs were there for the observant. Lower prices are still a distinct possibility in spite of the fact prices have already declined substantially.

The overall market psychology has been bullish for all markets since the summer and fall of 1982. This weeks price action could spell a change of attitude on the part of the public. I have been very nervous trading the long side of any market (except livestock) for several weeks and now my fears have been justified. If you are a "bull" in any market at this time, I suggest you stand aside.

The current market sell-off could be

# Angus bulls help reduce calving problems

...give you more  
calves to sell

**Proved by sound research.** Angus bulls produce fewer calving problems than any other beef bulls, according to U.S. Meat Animal Research Center tests, based on 2,368 calves born.

3-year-old cows bred to Angus bulls had only 3% calving problems, compared to 6% bred to Hereford bulls, and 10% to 27% bred to recent imports. In mature cows Angus bulls produced virtually no calving problems.

The Angus advantage is much larger with first-calf heifers. The exotics tested caused problems in 60% to 75% of births.

In an analysis of calving difficulty by Texas A&M University, based on 3,493 calves born in a Charolais herd from 35 sires, the cost of using mechanical pullers averaged \$85.50 per calf and \$243.24 for cesarean.

Every calf weaned bore a charge of \$15.26 because of the level of calving difficulty during the 5-year study.

**More calves—more money.** Ohio State research showed: "8 more calves raised per 100 cows by crossing with an Angus bull."

At 42 feeder calf sales in Kentucky, selling 46,064 calves, black-whiteface steers brought an average of \$4.84 more per cwt. than straight Herefords.

Wisconsin research proved: "Angus reach Choice grade in the shortest feeding time." This saves feed and interest costs.

**Advance with Angus.** Yes, Angus is one tough breed for today's cowman. Some commercial operators are suffering because they're using the wrong breed of bulls.

Pulling calves, losing calves at birth, rebreeding delays and cutting off horns are costly.

So this year, why don't you use registered Angus bulls? You, too, can "Advance with Angus."

**TPHA All Female Sale Date Set**

Rio Vista, TX — Plans are in the making for the All-Female Polled Hereford Sale to be held March 19, 1983. The sale will be held in the North Central Texas area with the exact sale date to be announced later.

Reasoning behind an all female sale is the good demand seen for females in the

fall sales that have been held. With numbers being decreased last summer due to the pasture shortage a demand is seen for females, including both Polled Hereford and F-1.

For information contact the Texas Polled Hereford Association, Box 70, Rio Vista, Texas 76093, Ray Mahan, 817/373-2524.

# WATUSI

There are about 150 Watusi cattle in North America. To increase their numbers, a crossbreeding-upbreeding program has been instituted by the newly formed Ankole-Watusi International Registry. An individual will be considered "Native Pure" when it has 15/16 Watusi blood.

Watusi cattle are famous for being the biggest horned cattle on earth. Called the "Royal Ox" in Africa where they were raised by Watusi and Ankole ancestors for 7000 years, they had to adapt to environment on the foothills of the Virunga volcanoes where one day temperatures vary from 20 degrees to 120 degrees F., to survive under months of drought, short food, scourged by insects and hunted by predators, they developed characteristics needed in today's commercial cattle.  
Lowe Ranch owns 20 purebred Watusi and is expecting 10 calves in 1983.

## Gulf Coast TLBA Plans First Sale

The Texas Longhorn Breeders Gulf Coast will hold their first annual cattle sale on Saturday, April 23, 1983 in conjunction with the LH7 Ranch Neighbors Sale.

The event will be held at the excellent new facility of the Houston Farm and Ranch Club Bear Creek Park in Houston.

Eddie Wood will be the auctioneer, announced W.O. Bill Reed, sales chairman. Maureen Marks is named sales manager.

The TLBGCA has also completed arrangements with the Houston Livestock Show to hold a sale in 1984. A maximum of fifty superb animals will be offered.

Plans are underway for other Texas Longhorn cattle exposure at the Houston show, announced Darrell Wilson, president.

Although the Gulf Coast association is dedicated to the promotion of the Texas Longhorn primarily in its geographical area, it will enlist the cooperation of all breeders in the membership of the national Texas Longhorn Breeders Association.

purchased by P. J. Barnhart of Austin for \$20,000 and "Welcome Caller," an oil on canvas painting by W. H. C. Koerner, purchased by Jay and Linda Luther of Lubbock for \$19,000.

Halfway through the evening's events, McCombs recognized Houston Civic leader, L. F. McCollum and his wife, Eleanor, for their contribution to the cattle industry and their patronage of the Houston School for Deaf Children. Proceeds from four animals totalling \$77,000 including a filly from Shelton Ranches, another from the King Ranch, a paint mare mule, and a Longhorn steer, were donated to the School by the end of the auction.

Darrel Dickinson, Calhan, CO, (left) and auctioneer, Eddie Wood at the LS Ranches Longhorn Dispersal, Feb. 27 in Fort Worth. Dickinson bought the top selling lot, Miss Lin at \$10,000.

## LS Longhorn Dispersal Exceeds \$1,000,000

In excess of \$1,000,000 was gathered up at the LS Ranches Texas Longhorn Dispersal, Feb. 27 at the Fort Worth Stock Yards.

The 300 plus registered cattle averaged \$1861 with the first 100 females selling going at \$3608 and 228

males at \$2247. Five and one half ton bulls brought \$8836 with 80 yearling and baby bulls going for \$847 each.

In the neighborhood of 100 Longhorn cross commercial cattle were sold the same day to complete the \$1 million figure. Also, on the day before, over \$100,000 worth of equipment, antiques, collectables, and riding working stock was sold.

Topping the sale was a 1974 daughter of Mr. Lin 34 out of a Yates cow. She had been a part of the LS Ranches embryo program. Dickinson Ranch, Calhan, CO, paid \$40,000 for the high seller, PL1111 Miss Lin 44.

Next high was the dam of Miss Lin that went to Jack Montgomery of Yuma, CO, for \$19,000. This double bred Yates cows was safe in calf with a full brother or sister to the \$40,000 top seller.

Eddie Wood was the auctioneer.

## 1982 Meat Imports Sharply Higher

At 2.59 billion lbs., imports of all red  
meats were up 11 pct. from the 2.33  
billion lbs. total of 1981. But still below  
the totals of most recent years.  
Imports totaled 2.56 billion lbs. in 1980;  
they hit 2.87 billion lbs. in 1979, and 2.86  
billion lbs. in 1978.

Main reason for the gain: Sharply  
higher beef imports, record high pork  
imports.  
Beef imports, at 1.94 billion lbs., were  
up 11 1/2 pct. from the 1.74 billion lb. total  
of 1981 — though below the 1980 total.  
Pork imports, at 612 million lbs., were  
up 13 pct. from the 541 million lb. total  
of a year earlier, and 11 pct. above the  
previous high of 550 million lbs. of 1980.  
Lamb and mutton imports, at 18.7  
million lbs., were down 40 pct. from a  
year earlier and the lowest on record.  
Veal imports totaled 18.7 million lbs.,  
up from the 17.30 million lb. total of a  
year earlier.

Delaware was the first state to adopt  
the U.S. Constitution on December 7,  
1787.

## Stuph & Thangs

(CONT. FROM PAGE 1A)

3. A PIK type of program using CCC stocks which could be provided at no cost to exporters, users and foreign buyers to help them, through subsidies,

to equalize competition in world trade. 4. The Congressional Budget Office estimates movement of dairy products under these plans would save the government an estimated \$225 million annually.

5. A bill ordering the Farmers Home Administration to defer certain loans to family farmers where good management practices are used and where circumstances beyond the farmers' control created the problem and where it appears there is a good chance the loan can be retired after the deferral period.

Bills are moving which would aid the movement of surplus commodities to needy people in this country and also overseas.

Secy. John Block told a meeting of the U.S. Feed Grains Council board of directors recently "We will not stand idly by and lose markets to unfair competition or trade restrictions." And pointed out subsidized exports from Europe and restrictions on exports to other nations, such as Japan, would be met by counter moves by this country.

It appears the agricultural crisis has finally gotten the attention of Congress

and may well be on the way to getting the attention of the rest of the world. Plans are also in the works to set up a new long term export agreement with the Soviets, a market which once belonged about 70% to American farmers and which has dwindled since the grain embargo days to around 30% at present. This is slight improvement, but not enough.

It is good news to know some moves are being made and some plans are in the works and as is always the case, when Americans are aroused they do something about it!

Ever thine,  
The Editor.

P.S.: Uncle Dunk says now that signs of improving health in our economy are obvious for all to see, it figures that those Gloom & Doom Sayers will take 'th' position that any improvement will be short lived. Dunk says what this country really needs is an anti-knock additive for people! - Thassall, Brothers!

## Coffman to Hold Field Day on Brahman and Brahman-Based Breeds

Year after year, American cattle breeders continue to find new ways to improve the quality of their herd. On Saturday, April 2, the Coffman Cattle Company will host a seminar on how to build better herds through genetic engineering of Brahman and Brahman-based breeds.

Along with our seminar and an afternoon barbecue, we will provide guided tours of Bull Branch Ranch, including our embryo transfer facility, one of the most successful in the state. Also on display will be some outstanding Brahman-sired offspring from Brangus, Red Brangus and Simbrah breeders.

states over one billion dollars in the past 10 years.

He is a graduate of Texas A&M University and serves as a counselor of the Texas A&M Research Foundation. Scruggs is also a member of the College of Agriculture Development Council at Texas A&M University.
